

APRIL OUTLAW

McMinnville, TN 37110 | 601-529-0841 | april.outlaw@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented healthcare professional and Certified Surgical Technologist (CST) with clinical experience supporting high-volume surgical teams across multiple specialties. Currently completing a Bachelor of Science in Health Information Management at Southern New Hampshire University (two semesters remaining) with the goal of advancing to a Master's degree in the same field. Proven strengths in organization, documentation accuracy, aseptic compliance, team collaboration, and multi-priority coordination in fast-paced clinical environments. Eager to apply these transferable skills to administrative, operational, and program-support functions within public health settings.

CORE COMPETENCIES

- Organizational & Time Management
- Records & Documentation Accuracy
- Microsoft Office Suite (Word, Excel, Outlook)
- Meeting Coordination & Scheduling
- Multi-Priority Task Management
- Attention to Detail & Quality Control
- Aseptic / Infection Control Protocols
- Surgical Instrumentation & Sterilization
- Medical Terminology & Anatomy
- Patient Safety & Confidentiality (HIPAA)
- Cross-Functional Team Collaboration
- Clinical Workflow Support

PROFESSIONAL EXPERIENCE

Surgical Technologist Intern

June 2024 – September 2024

Cumberland Medical Center — Crossville, TN

- Supported all phases of surgical care (preoperative, intraoperative, and postoperative), ensuring seamless workflow and adherence to hospital protocols.
- Managed comprehensive inventory of surgical instruments, supplies, and equipment; prepared sterile trays and verified readiness for scheduled procedures.
- Maintained strict aseptic technique and infection-control standards, contributing to zero preventable contamination events during assigned cases.
- Anticipated surgeon and team needs in real time, reducing procedural delays and supporting efficient operating-room turnover.
- Documented case-related details and equipment usage with precision to support accurate records and continuous quality improvement.

Surgical Technologist Intern

April 2024 – June 2024

Vanderbilt Wilson County Hospital — Lebanon, TN

- Assisted in 95+ surgical procedures spanning general surgery, orthopedics, ENT, and additional specialties, demonstrating adaptability across diverse case types.
- Established and preserved sterile fields; performed instrument counts and verified equipment functionality to uphold patient safety standards.
- Collaborated closely with surgeons, nurses, and anesthesia providers to coordinate care, communicate critical information, and maintain operational efficiency.
- Handled delicate instrumentation and specialized equipment with meticulous attention to detail, minimizing risk of damage or procedural interruption.
- Supported postoperative room turnover and restocking, ensuring readiness for subsequent cases and consistent adherence to departmental protocols.

EDUCATION

Bachelor of Science in Health Information Management

Expected 2027

Southern New Hampshire University (SNHU) — Two semesters remaining

Career objective: Pursue a Master of Science in Health Information Management upon completion of bachelor's degree.

Associate of Science in Surgical Technology

2023 – 2024
